| Student Comments: | | | | | | |
| <ul style="list-style-type: none"> • <i>Dr. Williams really allowed us to put clinical practice and the concepts we learned together.</i> • <i>Keep up the great work!</i> • <i>This course should not be an in-class course. It would work much better as a hybrid course. Dr. Williams has too many assignments in addition to the four tests. More time needs to be given for the case study's, one week is not enough. Although case studies are described as only 10 questions, the complexity of the questions requires a paper between 6–10 pages double spaced to answer.</i> • <i>Final exam: wish it were not cumulative</i> | | | | | | |
